

DREAMSCAPE NETWORKS COMPLETES DOMAIN NAME REGISTRAR ACQUISITION

Dreamscape Networks Limited (ASX: DN8) is pleased to announce that, further to its announcement on 19 June 2018, it has completed the acquisition of the customers, systems, and brand assets of the business operating as Domain Name Registrar (“DNR”) as from 1 July 2018.

Domain Name Registrar

DNR is a business principally focused on domain registration (0.9% .au market share) and web hosting, with approximately 80% of their business coming from domain registration and 20% from hosting.

Another strategic “bolt on” Australian Acquisition

DNR is the fourth local “bolt on” acquisition by Dreamscape Networks in the past 16 months, continuing the strong strategic rationale of consolidating local domain and hosting businesses under the Dreamscape Networks’ umbrella.

DNR fits into the Dreamscape infrastructure in Sydney and is expected to be fully integrated by 30 September 2018.

Key Highlights

- DNR is expected to generate circa \$2.5 million of revenue and \$1.5 million pro forma EBITDA in the 2018 financial year (unaudited management accounts). With full year cost savings from integration into the Dreamscape Networks business the acquisition multiple is expected to equate to approximately 4.6x 2019 EBITDA post-synergies.
- The acquisition is expected to be immediately EPS accretive in the 2019 financial year, with the full benefits of the acquisition being seen in the 2020 financial year.
